

## *Production/Technology PR Report No.9*

### 1. Outline of Firm

Name of Firm	IZUMI KOGYO CO., LTD			Name of Representative	Katsumi Shiowaki		
				Person in Charge	Kazuhiro Ishikawa		
Activities	Various contract working.			U R L	http://www.izumikg.co.jp/		
Main Products	sheet-metal working of panels and brackets, welding and assembly of housings and frames, Lathe working, milling, etc.						
Address	6554, Fukaya, Ayase City, Kanagawa Pref.						
Tel. Number	0467-76-6047			FAX Number	0467-76-7626		
Capital (M yen)	50	Founded in	May 1985	Sales (M yen)	462	Employees	45

### 2. PR Items

***IZUMI KOGYO excels in "precise sheet-metal working",  
"machine working", and "welding and assembly of housings and frames",  
and offer various propositions to our customers.***

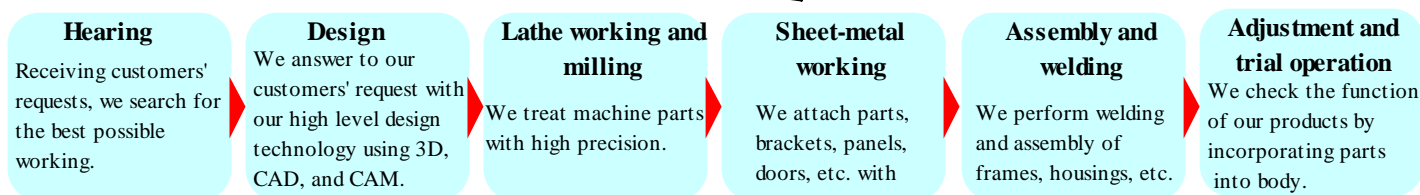

As a manufacturer, we also design and manufacture automatic machines and conveying devices.

#### Sheet-metal working

We are good at precise sheet-metal working for contract work. According to our customers' specifications, we can perform complicated bending work, and welding and assembly of cut parts. In addition, when a customer place an order, we offer a technical proposition etc. using our manufacturing know-how, which has been highly evaluated by our customers. Furthermore, we totally control the characteristics of the products, order specifications, quality control items, etc. of our customers, who order our products to answer the requests of the customers.

#### Welding and assembly of housings and frames

Using our technology of sheet-metal working, cutting, and welding, we deliver to our customers our products that will satisfy them with our rich production records and manufacturing know-how. Especially, we are proud of our welding work technology. We have highly evaluated production records by our experts capable of performing welding of vacuum parts.

We receive your order from your request to design, working, assembly, adjustment, and trial operation, that is, from start to end of the entire production steps. Your confidential information is secured.

#### Machine working

We have NC compound lathe working machining center and 5-axes machining center to be able to cut and make holes at a high precision high-technology level.

#### Introduction of products

We can design and manufacture hot air furnaces, air-conditioners, food processors, various conveyors, etc. according to our customers' specifications.
